CONSENT FOR USE OF DERMAL FILLERS

The purpose of this informed consent form is to provide written information regarding the risks, benefits and alternatives of the procedure named above. This material serves as a supplement to the discussion you have with your nurse/healthcare provider. It is important that you fully understand this information, so please read this document thoroughly. If you have any questions regarding the procedure, ask your nurse/healthcare professional prior to signing the consent form.

THE TREATMENT

Treatment with dermal fillers (such as Juvederm, Restylane, Revanesse, Radiesse and others) can smooth out facial folds and wrinkles, add volume to the lips, and contour facial features that have lost their volume and fullness due to aging, sun exposure, illness, etc. Facial rejuvenation can be carried out with minimal complications. These dermal fillers are injected under the skin with a very fine needle or cannula. This produces natural appearing volume under wrinkles and folds which are lifted up and smoothed out. The results can often be seen immediately.

PREGANCY AND ALLERGIES

I am not aware that I am pregnant. I am not trying to get pregnant. I am not lactating (nursing). I do not have or have not had any major illnesses which would prohibit me from receiving dermal fillers. I certify that I do not have multiple allergies or high sensitivity to the medications, including but not limited to lidocaine.

ALTERNATIVE PROCEDURES

Alternatives to the procedures and options that i have volunteered for have been fully explained to me.

PAYMENT

I understand that this is an "elective" procedure and that payment is my responsibility and is expected at the time of treatment.

RIGHT TO DISCONTINUE TREATMENT

I understand that I have the right to discontinue treatment at any time

PUBLICITY MATERIALS

I authorize the taking of clinical photographs and videos and their use of scientific and marketing purposes both in publications and presentations. I understand that photographs and videos may be taken of me for educational and marketing purpose. I hold Evolve Chiropractic and Wellness harmless for any liability resulting form this production. I waive my rights to any royalties, fees and to inspect the finished production as well as advertising materials in conjunction with these photographs.

RESULTS

Dermal fillers have been shown to be safe and effective when compared to collagen skin implants and related products to fill in wrinkles, lines and folds in the skin on the face. Its effect can last up to 6 months. Most patients are pleased with the results of dermal fillers used. However, like any aesthetic prcedure, there is no guarantee that you will be completely satisfied. There is no guarantee that wrinkles and folds will disappear completely, or that you will not require additional treatment to achieve the results you seek. The dermal filler procedure is temporary and additional treatments will be requires periodically, generally within 4-6 months, involving additional injections for the effect to continue. I am aware that follow-up treatments will be needed to maintain the full effects. I am aware the duration of treatment is dependent on many factors including but not limited to: age, sex, tissue conditions, my general health and lifestyle conditions, and sun exposure. The correction, depending on these factors, may last up to 6 months and in some cases shorter/ longer. I have been instructed in and understand the post-treatment instructions.

I understand this is an elective procedure and i hereby voluntarily consent to treatment with dermal fillers for facial rejuvenation, lip enhancement, establishing proper lip and smile lines, and replacing facial volume. The procedure has been fully explained to me. I also understand that any treatment performed is between me and the doctor/healthcare provider who is treating me and I will direct all post-operative questions or concerns to the treating clinician. I have red the above and understand it. My questions have been answered satisfactorily. I accept the risks and complications of the procedure and I undersant that no guarantees are implied as to the outcome of the procedure. I also certify that if I have any changes in my medical history I will notify the nurse/healthcare professional who treated me immediately.

CONSENT FOR USE OF NEUROMODULATOR COSMETICS

THE TREATMENT

Botox and Dysport is a brand name of botulinum toxin type A, a neurotoxin that blocks muscles and the nerves that control them. The effects of Botox become apparent 2-5 days after injection and generally last for 4-6 months. The FDA has approved the use of Botox to treat facial dystonias (spasms), strabismus (crossed eyes), and to temporarily soften facial rhytids (wrinkles) between the eyebrows. While the FDA has not approved injections to improve the appearance of wrinkles in other areas of the face, healthcare providers may perform these "off-label" procedures. There are alternatives to Botox, including no treatment or medicines or surgery on my facial nerves and muscles.

RISK AND COMPLICATIONS

Include but are not limited to:

1. Bruising
2. Under correction (not enough effect) or over correction (too much effect)
3. Facial asymmetry (one side looks different than the other)
4. Paralysis of a nearby muscle leading to: droppy eyelid, double vision, inability to close eye, difficulty whistling or drinking from a straw
5. Generalized weakness
6. Permanent loss of muscle tone with repeated injection
7. Flu-like syndrome or respiratory infection
8. Nausea or headache
9. Development of antibodies to Botox
10. Botox contains human-derived albumin and carries a theoretic risk of virus transmission. There have been no reports of disease transmission through Botox.

CONTRAINDICATIONS

You should not have Botox if: you are pregnant; nursing; allergic to albumin; have a infection, skin condition, or muscle weakness at the site of the injection; or have Eaton-Lambert syndrome, Lou Gehrig's disease, or myasthenia gravis.

RIGHT TO DISCONTINUE TREATMENT

I understand that I have the right to discontinue treatment at any time.

UN AN IN A N

I understand the above, and have had the risks, benefits and alternatives explained to me. No guarantees about results have been made. I give my informed consent for dermal and neuromodulator injections today as well as future treatments needed.

Consent to Release Information:

I give Evolve Chiropractic & Wellness Center my consent to release/obtain information from the following individuals with respect to my care by report, letter, phone, fax, email or direct communication:

- Physician(s)
- Insurer
